AWARDS FOR SEWING

Fair Directors Announce
Special Class; Prizes
Limited To Ribbons

In response to numerous inquiries from homemakers throughout the county, the directors of the County Fair, to be held August 25 to August 27, on Wednesday announced a special competition in sewing will be held.

Since the regulations regarding the use of state funds by the fair do not permit their use for premiums in this classification, the awards will be limited to ribbons, the fair management said.

According to fair manager L. J. Anderson, women in all sections of the county have been making inquiries concerning such a competition and the decision of the board to announce the special class was in response to these inquiries.

Dr. Anderson said that the entries will be displayed in glass cases at the fair, under lock and key, and will be adequately protected against becoming unduly soiled and will be safeguarded.

Ribbon awards will be presented the winners in sixty-three types of entries under the heading of needlework and handicraft as follows:

Apron, Afghan, Baby Quilt and Robe, Bags, Bath Mats, Bedroom Set, including spread, embroidered; Bed Set, sheet and slips; Bed Spread, crocheted; Bed Spread, knitted; Bed Spread, Buffet Set, open class; Breakfast Set, cover and two or more napkins, open class; Centertop, 18 to 30 in., open class; Chesterfield Set, Collars, hand-made; Dolly, open class; Dining Room Set, 3 pieces or more; Dresses, knitted; Dresses, crocheted; Dresser Scarf, open class; Dresser (Continued on page 3)

Roarin' Camp Program

Quadrille Club, 4-H
Quartet, Accordionist
To Share Spotlight

Plans are well under way for El Dorado County night at Roarin' Camp, August 4th, according to an announcement today by Wallace M. Ripley, secretary of the El Dorado County Chamber of Commerce. Dr. L. J. Anderson is chairman of the committee of arrangements.

The program will take place in the Camp's open air theatre starting at eight o'clock. A large delegation of El Dorado County citizens is expected to attend on that night with the entire program being given by local people.

Several popular features will be exhibitions of old-time dances by members of the Pioneer Quadrille Club, accordion solos by Jack Roberts, proprietor of the Piedmont Cafe, vocal numbers by the Rescue 4-H Club quartet.

A special block of tickets for Aug. 4th will be on sale at the Chamber of Commerce, at Murray's, at The Sportsman's Shop and at the office of Dr. J. Anderson.

FURTHER INSURANCE of the protection of summer homes and resort property and the surrounding timberlands at Lake Valley against the on Eldorado National Forest to the Lake Valley district in the care of Ranger R. R. Bryan. The photo above was taken in Placerville at Fire Guard Clay Hansen, shown in the picture, took the truck to its new headquarters.—Photo courtesy The U. S. Forest Service.

NEW TRUCK FOR LAKE VALLEY

290-Gallon Tank Pumper
Added To Equipment
At Meyers This Week

Additional fire protection to residents and resort owners in the Lake Tahoe area is being furnished by Eldorado National Forest in the form of a new fire pumper-tank truck just delivered. District Ranger Raleigh Bryan stated today.

This tanker is of the latest type and design, incorporating features developed over a period of years by the Forest Service. The truck unit is the cab-over-engine type, with a tank of 290 gallons capacity, a high-pressure pump operated by the truck motor, and will be completely equipped with necessary fire fighting accessories and tools.

The supply of water in the tank is intended for initial attack, and for use where no water is available. Where water in streams, lakes, etc., can be reached by the truck, a self-priming device on the pump quickly makes such water available to the hose men.

The tanker will be stationed at the south end of Lake Tahoe, and will be manned by an experienced CCC suppression crew, Bryan stated.

With the arrival of the new truck, Lake Valley district now has three fire trucks, one other being of modern type, while the third has been in service for several years.

ACQUITTAL, 2 DISMISSALS IN DISTURBANCE CASE AT DIAMOND SPRINGS

Following acquittal of Ray Roberts on charges of disturbing the peace in a jury trial Tuesday before Justice of the Peace J. W. Landis at Diamond Springs, similar charges against Carl Roberts and Dale Roberts, scheduled for jury hearings on Wednesday, were dismissed on motion of Deputy District Attorney Robert E. Roberts.

The three had been arrested about ten days before following complaint of disturbance of the peace at Klarc's Mill, and pending trial were at liberty on bail.

All had asked trials by jury and the hearing Tuesday was in the matter of the charges against Ray Roberts, while the hearing which had been scheduled for Wednesday in the matter of the charges against Carl Roberts and Dale Roberts. The deputy district attorney stated, however, that all three cases were based upon common circumstances.

Raymond Roberts was represented by Attorney T. S. Marlor and hearing of the case occupied the greater part of the day following which the jury retired and reached a finding for acquittal. After the verdict, motion for dismissal of the charges against the other two was entered and granted.

TOT 'HIDES IN CAVE' AND IS CRUSHED UNDER CAR ON SAN FRANCISCO STREET; DRIVER HELD FOR INQUIRY

SAN FRANCISCO, (UP)—Stanley Lackey, three and a half years old, was playing in the street in front of his home with his small friends. In the middle of the street was a cardboard box. It was not a large box, but Stanley was not a large boy.

"I'm going to hide in the cave!" he called. He crawled inside the box.

Initial Gifts For Museum Acknowledged

Several county residents have started to send in their contributions of historical items to be placed in the new El Dorado County Historical Building.

Among those who have submitted articles either as loans or as outright gifts are: C. H. Wildman, Mrs. Mary Lewenstein, Mr. and Mrs. Robert Carpenter, Sr., Miss Mary O'Donnell, E. A. Green, Leon Thomas, Mrs. Amy Horn Drysdale, Weslie Wood and Reuel Whigham.

The officers of the historical society are emphasizing the fact that any articles brought to the building will be received either as gifts or as loans and a receipt will be given accordingly.

Considerable interest is being shown in the efforts of the members of the society in trying to preserve many of the remaining relics and records pertaining to the history of El Dorado County.

Among the very interesting items that have been brought to the display thus far are an insulator pin from the first trans-continental telegraph line found in the vicinity of Riverton and contributed by Leon Thomas; rare photographs from Miss Mary O'Donnell, E. A. Green, and Mrs. Drysdale; a muzzle-loading shotgun by Reuel Whigham, and numerous items brought across the plains in the early days by Mrs. Martha Carpenter and contributed by Mr. and Mrs. Robert Carpenter, Sr.

A set of Chinese vegetable vendors' scales with hand-made weights, used on the streets of Placerville and contributed to the museum by Mr. Wildman is reported as attracting unusual attention currently, at the museum building on Sacramento Street.

Placerville Pair Wed On Monday At Carson City

Mr. and Mrs. Jack Keith Crossland have returned to Placerville following their marriage at Carson City on Monday. Mrs. Crossland is the former Patricia Anita Wagner, who operates the Ivy Beauty salon. Her husband operates the barber shop on Main Street below the Hotel Raffles.

The couple were accompanied to Carson City by Sandra Lindberg and Nello Tormini, who witnessed their marriage. We join their many friends in all good wishes.

entered and granted.

The members of the trial jury included Bertha Peter, Josephine Martin, Carrie Gossow, Harold Eubank, S. W. Polley, Melissa M. Ham, Anna R. Butts, William W. Vandenberg, Nettie Webster, Lillian Drew, Dorothy Pilatti and L. A. Reynolds.

SOIL DISTRICT SIGN-UP OPENS

Petitions Circulated
Wednesday Inviting
Signatures Of Farmers

Petitions were in circulation Wednesday formally within the boundaries of the El Dorado Irrigation District of a Soil Conservation District.

Following a meeting of the committee in charge on Tuesday evening at the farm advisor's office, it was announced that petitions are being circulated by George H. Volz, James A. Irving and W. J. Clark, and an additional petition will be left at the Placerville Fruit Growers' Association where parties who are interested and who are not personally contacted may sign up.

The petitions were prepared at the request of the committee by Deputy District Attorney Robert E. Roberts and provide that the boundaries of the proposed district shall be one and the same as the boundaries of the El Dorado Irrigation District.

Placerville, Smith Flat, Camino and other settled sections of the area which have little or no farm lands are excluded from the district.

The petitions require a minimum of the signatures of twenty-five per cent of the farmers of the proposed district representing twenty-five per cent of the land.

The committee hopes that a sufficient sign-up may be obtained to permit of presentation of the petitions to the Board of Supervisors at their meeting on August 7th. Following this, a sufficient number of signatures having been obtained, the procedure will be that the petitions will be referred to the County Assessor for certification, subsequently sent to the state Soil Conservation District Committee, and upon approval by that committee, returned to the Board of Supervisors. The board then is empowered to call an election on the question of forming the district.

Mining Bill Explained

Assessment Work "Must Be Started" Sept. 1st, Resolution Declares

SAN FRANCISCO—The Division of Mines, Department of Natural Resources, under the direction of Walter W. Bradley, State Mineralogist, announces that a copy of H. R. 6977 has just been received from Representative Abe Murdock, author of the bill, which extends the time within which annual assessment work on mining claims held on location in the United States may be commenced, for the year commencing at 12 o'clock meridian July 1, 1938. The text of the act, which was approved by the President June 30, 1939, follows:

"Be it enacted by the senate and house of representatives of the United States of America in congress assembled, that to comply with the provisions of section 2324 of the Revised Statutes of the United States, which requires on each mining claim located, and until a patent has been issued therefor, not less than \$100 worth of labor to be performed or improvements aggregating such amount to be made each year, it shall be sufficient, for the year beginning at 12 o'clock meridian July 1, 1938, if such work or improvements are in good faith commenced on or before 12 o'clock meridian September 1, 1939, and prosecuted with reasonable diligence to completion."

It will be noted that this Act requires only that the work be commenced before noon September 1, 1939, and continued thereafter with due diligence until completed.

Malotte Preliminary Set For Friday

Preliminary hearing for Wade Malotte, 52, charged in Placer County by Fred A. Ruple with grand theft in an asserted \$4,000 swindle case, is scheduled for Friday before Justice of the Peace P. N. Smith, at Auburn.

District Attorney Lowell Sparks, of Placer County, is quoted as stating that Mr. Ruple will be asked to take the stand in the preliminary hearing.

Malotte, arrested at Flagstaff, Arizona, waived extradition and was returned to Auburn for trial.

New Job for G-man

Melvin Purvis, former agent of the federal bureau of investigation, whose work was largely responsible for the killing of John Dillinger, is shown at his desk in Florence, S. C., as publisher of the Florence Evening Star.

AIR DEFENSE TEST SET

County Shares In Army
Demonstration To Be
Held August 1 And 2

A new role soon will be added to the varied field of action of Forest Officers, according to Forest Supervisor Edwin F. Smith.

On August 1st and 2nd, the National California section of the U. S. Army's Aircraft Warning Service will be given its first major test, with the local organizations of the Eldorado National Forest and the Pacific Gas & Electric Co. playing important parts.

Linked in a coastwide network of observation stations and communication lines comprising 292 observers located in 259 stations, these men will keep a lookout for invading "enemy" planes and will flash warnings direct to the Intelligence Center in San Francisco entirely by means of the private telephone lines of the Forest Service, the P. G. & E. Co., and also the Southern Pacific railroad.

On the designated days, various types of army planes will fly at high altitudes in squadrons of three, and observers throughout the network will be on the alert to detect flights. Any flight detected would immediately be reported to the Intelligence Center as to location, number and type of planes, and direction of travel. On Eldorado Forest eight lookout points have been designated, namely Angora, Meyers, Leek Springs, Armstrong, Baltic, Bald Mountain, Lookout Mountain, and Jakey Hill.

Similar aircraft warning services have been organized in other parts of the nation, but this is the first time that Northern California has joined the program. Smith stated, Participation in the test includes the Forest Service, the P. G. & E. Co., Southern Pacific railway, State Forestry and Park Services, and the American Legion.

112 New Enrollees For Snowline CCC Camp

One hundred twelve new enrollees for Snowline CCC Camp, coming from Kentucky, arrived in Placerville Tuesday evening by special train and were transferred to the camp in a fleet of trucks. It is understood the youths are replacements to bring the camp to full strength, filling vacancies created as the result of the termination of the enrollment terms of other young men.

Placerville Man Figures In Sacramento Crash

The following report of an auto crash in Sacramento involving a Placerville motorist is given by Sacramento papers:

Eleventh and H Streets, July 23rd, 2:25 p. m. collision between truck driven by Cecil Echley, 33, of 2528 N Street and car operated by Frank Johnson, 38, of Placerville, El Dorado county. No injuries.

F. Norman Celio, Tahoe resort man and member of the county fair directorate, was a caller on Wednesday from Meyers Station.

MARSHALL MUSEUM PROJECT DIES BY POCKET VETO

Governor Olson Fails To Sign Measure For
Housing Relics, Improving Water System
At State Park In Coloma

Projected further development at the Marshall Monument State Park at Coloma may be delayed indefinitely following the failure of Governor Olson to sign Senate Bill 1046 (Pierovich), to make available from all ready existing funds \$15,000 for improvement of the historic shrine. The measure was passed by the Senate under the guidance of Senator A. L. Pierovich and was concurred in by the Assembly, where it was supported by Assemblyman A. G. Thurman.

H.S. Reports Replacement Of 2 Teachers

The employment of two teachers to fill vacancies created by recent resignations from the faculty was announced Wednesday morning at the high school by Principal B. E. Larson.

Mrs. Helen Dormody Chrysal, daughter of Mrs. L. J. Dormody, who for some time past has been teaching in the Bay District, will succeed Miss Mary Wilkinson in teaching freshman English.

Miss Wilkinson, according to recent press dispatches, will teach at Anchorage, Alaska, this year and in response to this report and in view of the receipt by the principal of a telegram from her stating that a letter is enroute, she has been released from her contract.

The second assignment announced by Principal Larson is in the home-making department where Miss Lillian Evelyn Olson will succeed Miss Irene Anderson, resigned. Miss Anderson has accepted an assignment with the Placer Union High School and Junior College.

Miss Olson comes from the high school at Selma, this state, where she has had charge of the home-making department for seven years. She is a graduate of the University of California and has done post-graduate work at various other colleges.

30 ACRES OF H. V. MADDEN PROPERTY LEASED TO N. Y. CONCERN

A crew of men is at work on the development of the 180 foot shaft and the 200 feet of drift on the Homer V. Madden property north and east of Placerville near the Union School, says a Sacramento report.

The thirty acre piece of ground recently was leased by Madden to H. A. Wotton and associates of Buffalo, N. Y.

The property is said to contain the famous old Gray Channel, an early day producer, which yielded several fortunes.

The channel on the property, according to Madden, is 1200 feet long and varies in width from 150 to 200 feet. Fourteen feet of material lies between the bed rock and the lava capping and Madden said, about six and one half feet of this is pay. Some development work was carried on about one year and a half ago.

A blacksmith shop, hoist, air blowers and other equipment is on the ground. At the start of operations one shift of men will be employed. Unlike some gravel deposits in this section the Gray Channel gravel is free and therefore, Madden declared, it will be possible to save the value of sluice boxes and Hungarian riffles.

Forest Supervisor Edwin F. Smith is spending several days on the Georgetown district with Ranger Frank McCaslin.

HIGH GRADING STORY FOR RADIO BASED ON FACTS SUPPLIED BY J. F. BONGARD IN STATE INVESTIGATIONS

The first successful campaign ever waged against the gold-mining racket of "highgrading" will be revealed in the true "eDath Valley Days" story on Friday, July 28th, broadcast from 8:30 to 9:00 p. m. PST., over the NBC Red Network. John F. Bongard, gold inspector of the State Division of Mines, provided the facts of this inside story of his investigation of one of the largest mines in California, in 1935-36.

The son of a hard-rock miner, Bongard worked underground himself before going to college. He knew the miners, working singly or in gangs, managed to steal great quantities of highgrade ore, in spite of elaborately thorough searching by

With the expiration of the bill-signing at midnight Tuesday night, the measure remained by the Governor and died by a pocket veto.

It proposed to divert \$15,000 from the all ready existing state parks acquisition and maintenance fund for further improvements at the Marshall monument state park which were to include \$6,000 for the development of water and for landscaping at the park and the balance for the acquisition by the state of the James Marshall museum collection at Kelsey, and for its housing at the Marshall Park.

The park, under the guidance of the State Park Commission, is now the scene of a road building project, under the direction of the state Division of Highways, which is building a new standard width and grade road to the monument.

This work has reached the final stages and reports heard Wednesday were to the effect that opening might be started Thursday with the road open to general travel during this coming weekend.

In addition, the state park commission has a WPA project for improvement of the grounds, widening of the auto parking area, the building of out-of-door stoves, building additional picnic tables and benches and improving the steps leading to the Marshall monument site.

This work was initiated last week and will provide employment for a (Continued on Page 4)

County Fires "All Quiet"

House Lost, 4,000 Acres
Burned Over In Series Of
Blazes Earlier In Week

State Division of Forestry fire suppression crews and their CCC camp assistants had a rest Wednesday as lookouts reported "all quiet" on the fire situation.

Only one fire was burning in the county Wednesday: the Rattlesnake Bar Blaze, and that was under control. That fire broke out Sunday.

In the "breathing spell" which the day afforded, a check-up showed a total of about 4,000 acres of brush and grass and some timber burned over during Sunday, Monday and Tuesday, and one house destroyed.

That was on Monday, in the fire about a quarter mile east of El Dorado.

The Rattlesnake Bar blaze was under control. The Long Garden fire was reported as "practically out," the fire east of El Dorado was out and the fire in the Logtown section was out as was the fire which threatened a part of the Rescue district on Tuesday.

With 40 acres burned at Logtown and 3,500 acres burned at Long Garden and about 400 acres at Rescue, the acreage burned over stood at more than 3,900 with no estimate available on the extent of the area (Continued on page 3)

STATE FAIR SCHEDULES HORSE "PULL" FOR FIFTH YEAR

SACRAMENTO — For the fifth year the most powerful horses and mules in California will test their strength against a mechanical device at the California State Fair, on September 1 continuing through the 10th.

Three contests are planned, one for a team under 2,600 pounds, a second between 2,600 and 2,999 pounds, and a third for the heavyweights, 3,000 pounds or over.

They will make their pull against the State Fair's dynamometer, a mechanism placed upon a truck and

designed to demonstrate the value of type, soundness, and of the importance of the selection of horses and mules intended for long arduous work.

During the year the machine, which cost nearly \$2000, is used at district exhibitions to select animals for the contests at the State Fair.

JAIL BARS ESCAPE-PROOF

PRESCOTT, Ariz. (U)—Ted Dav-
 enport has obtained a patent on an escape-proof bar for jails. The bars are hollow inside and when sawed to the point where the compressed air inside is released, it establishes a contact with a signal system in the warden's office.

OIL WORKER HUSBAND OF WEALTHY WIDOW WINS \$100 TEMPORARY ALIMONY PENDING TRIAL OF DIVORCE ISSUE

LOS ANGELES, (U)—Burt Simmons, 35, who married a rich woman 10 years his senior, asked \$100 a month alimony from her because she jerked him from a roughneck job in the oilfields and got him accustomed to a Beverly Hills mansion. He was granted \$100 a month.

"I want it understood that I am no gigolo or a lounge lizard," explained the tall, husky, and hand-

some Simmons. "I'm just a roughneck oil construction worker and I want to go back to the job. I just want the money until I can get back on my feet."

Simmons told Judge Parker Wood he was doing all right as a \$65-a-week roughneck in the oilfields around Bakersfield, until he met and married Mrs. Dorothy D. Simmons, 45, two years ago. He complained that she made him quit his roughneck job; spoiled him by installing him in a \$35,000 Beverly Hills mansion; and handed out nearly \$10,000 to set him up in business.

"But I made bad guesses about the businesses, and all the money is gone now," he related ruefully. He went to China on the last of the failing ventures and Mrs. Simmons left him stranded there, he said.

Judge Wood granted Simmons the \$100 a month pending a hearing of a divorce suit the husband announced he was filing.

HUNDREDS HEAD GOLD RUSH TO NEW "DIGGINGS" IN MEXICO

NOGALES, Sonora, Mex. (U)—Hundreds of fortune seekers poured into Northern Sonora as accounts of a fabulously rich gold strike came drifting in from the tiny village of mesquite, 90 miles southwest of here.

Reports said the population of Mesquite, normally well under 100 persons, suddenly had jumped to 4,000 and was growing daily with the great influx of gold seekers.

American mining experts returning from visits to the new gold field said production had reached "astounding" proportions. They said the Six Mile gold field, discovered by one Francisco Arballo, was yielding almost 350 ounces of gold a day.

Reports received here said the best producing claim was owned by a rancher, Xavier Gomez, who had been mining more than \$500 in gold daily. His total production in the past few weeks was estimated at near \$7,000.

An International sheep dog trial will be held on Treasure Island on Sept. 23.

Today's Fashion

Always flattering.

By VERA WINSTON

WHITE with a dash of something else is always flattering. This year white has been splashed with red or tawny brown or tan or yellow, but honors still go to white with a touch of navy. Here is a smart dress and by a frilly collar and cuffs of white dotted navy taffeta on the jacket. The dress is in one piece with the collarless neckline buttoning simply to the waist. Two high-placed pockets are edged with bands of the navy and a navy belt is worn with it. The skirt is seamed center front and back with quite a lot of flare.

SCOTT'S SCRAP BOOK

By R. J. SCOTT

OSRICHS DO NOT BURY THEIR HEADS IN SAND WHEN DANGER APPROACHES!

THEY LIE DOWN, STRETCH OUT THEIR NECKS AND HEADS UPON THE SAND, AND KEEP THEIR EYES OPEN

AS THE 6,000,000 SQUARE MILES OF ICE REMAINING ON THE POLAR CAP OF THE EARTH MELTS DURING THE SUMMER SEASON INTO WHICH THE WORLD HAS ENTERED, THE OCEAN LEVELS WILL BE RAISED ABOUT 150 FEET!

WOMEN DRIVE A LITTLE FASTER THAN MEN IN THE SUMMER BUT MEN DRIVE A BIT FASTER THAN WOMEN IN THE WINTER

Household Hint

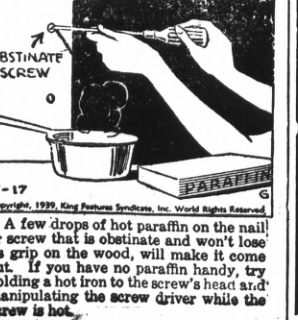

Clean containers, clean glasses, clean and sterilized bottles for the baby, and the maintenance of clean hands by the person who pours the milk, serves it, and uses it in food preparation, are all links in the chain of sanitation needed to keep milk fresh and wholesome. Only if these safeguards are observed can milk uphold the reputation it has gained for healthfulness.

Household Hints

A new idea in materials for covering the bathroom walls is oilcloth. You may choose a pretty flowered pattern and apply it just like wall-paper. It is absolutely waterproof, of course, and may be washed with soap and water when soiled.

A foot bath, followed by a change of stockings and shoes, is wonderfully refreshing to the tired housewife who has been on her feet all day, but wishes to appear fresh and relaxed for the family's return from school and work.

Wife Preservers

A few drops of hot paraffin on the nail or screw that is obstinate and won't lose its grip on the wood, will make it come out. If you have no paraffin handy, try holding a hot iron to the screw's head and manipulating the screw driver while the screw is hot.

BOY SCOUT, MISSING IN WOODS TEN DAYS, FOUND ALIVE

SHERMAN MILLS, Me., (U)—A 12-year-old boy who survived for nine days and nights in a virgin forest without food, weapons, or equipment told his story today. He had been found naked, half starved, bramble-torn but physically sound.

Donn Fendler, Jr., a second class Boy Scout, went on a hike with his

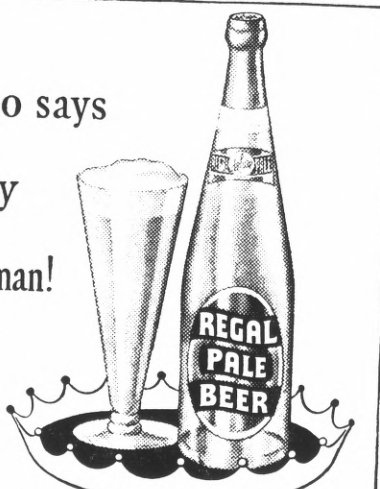

troop 10 days ago. They entered Baxter state park to climb Mount Katahdin, which is a mile high. At dusk, Donn disappeared.

Most of the while Donn was wandering through the pine forest, 300 to 500 national guardsmen, forest rangers, lumberjacks, game wardens, and civilians were looking for him. They found no trace of him, and over the week-end the search practically ceased as all woodsmen agreed that even if he hadn't fallen and over a precipice, he couldn't have

survived unaided in the woods. Nelson McMorris, a guide with a sporting camp eight miles from Stacyville near the Penobscot river, heard someone calling across the east branch of the river. He paddled his canoe across and there on the opposite bank was a naked boy.

LIVINGSTONE, Northern Rhodesia, (U)—Semi-official estimates of the population of the Copper Belt of Northern Rhodesia show there are two male adults to every woman and one child to every two women.

Well, Well, Here's a man who says
REGAL PALE tastes just like any
 other good beer. What a lonesome man!

Sports Parade

By HENRY McLEMORE

NEW YORK, (UP) — By one of those happy coincidences the American Federation of Labor will be in national session in Cincinnati when the Reds and Yankees open the world series there in early October.

I say "happy" coincidence because the series will afford the laborites an opportunity to share the company of the happiest group of workmen this side of that band whose duty it is to hang out the stars, dust off the moon, and keep the celestial harps in tune.

Even William Green, president of the AFL, won't be able to find much of a flaw in the working conditions, hours, or wages of the major league baseball players. Their workshop is the great out of doors, with sunshine, pure air, green grass and trees in bounteous plenty. They summer in the east and north and winter in the south. They travel first class everywhere and as for food—well, they travel the delightful road that leads from soup to nuts three days.

The working hours of the major leaguers are better than any imagined by the AFL, which is strangled with a 40 hour week. Your average major leaguer would swoon at the thought of such Siberian salt mines terms. He thinks and operates on a 20 or 25 hour week, with days off when it is rainy or cold, and a vacation of five months. Many of them would prefer a little longer rest period, saying that five months scarcely gives a man time to break in his bird dogs, and fish all the trout streams in the neighborhood.

A first hand observation of the major leaguers may very likely result in a demand by the AFL for shorter hours. There is no telling what President Green will propose as the perfect working day when he gets through studying the schedule of say, a major league umpire or league president. These jobs are the rock bottom in soft touches. Umpires and league presidents not only ride the gravy train—they ride an air-conditioned, stream-lined, rubber-cushioned one.

An umpire's working day will average about two or three hours during the six months or so of the season. During the rest of the year he has time to rest and husband his strength for the herculean task of standing behind or beside a stuffed sack with his hands on his hips.

Just what constitutes the working day of a baseball league president no one knows. Guesses range anywhere from 10 minutes to 15 seconds, with the first figure more likely correct, as it takes a man about that long to open the door of an office, cross to his desk, say a quiet prayer of thanks for having fallen into such a sweet job, and be off again.

A few days of association with men who hold such jobs, and it would not be surprising to have Mr.

Yokes, Mexican Drawn Work Specimen, Needlepoint Specimen.

JAM IN JARS FOR 90 YEARS HIGHLY VALUED

JOHANNESBURG, South Africa, (UP)—A Johannesburg gourmand offered Mrs. Francina Muller \$25 for a jar of her famous jam, and was turned down.

"Not for \$100," she told him. Mrs. Muller is a farmer's wife at Roederland, in the Transvaal. The jam was made by her great-grandmother at Swellendam, Cape Province, in 1848.

That was a good year for fruit, and there was a lot of jam to start with. As the family moved northward in the course of years they took it with them.

Most of it was eaten, but there was still some left when the great-grandmother died. After that the rest acquired a sentimental value, and it was decided to hand it down intact to coming generations as a kind of heirloom.

Most of it is green fig, watermelon, or quince. Nothing will persuade Mrs. Muller to let a jar be opened, but by holding it up to the light it is apparent the jam is still good.

LEMONS SEEK AID OF COURT IN DIVORCE PROCEEDINGS

LOS ANGELES, (UP)—The married life of Eula and Howard L. Lemon was "lemon" in more ways than one, the wife maintained in a divorce suit.

Mrs. Lemon charged her wealthy husband tried to drown her in a fish pond. He also tried to drown his wife's daughter by a former marriage, the complaint said, and police were called to restrain him.

The timely screaming of her pet parrot saved her from a serious injury when her husband assertedly attacked her and tried to dislocate her neck, she charged.

In cross-complaint, Lemon alleged his wife had an uncontrollable temper, cursed him and threatened him with a pistol.

COLLECTORS STRIP VELD
JOHANNESBURG, South Africa, (UP)—A warning that the South African veld may be ruined in the not-too-distant future by professional and amateur collectors of its flora and fauna, is given in reports of social welfare officers in rural districts. They suggest instruction should be given to both natives and whites on nature preservation.

Masquerade Over

Now she's Minerva Phipps, but for 23 years she was chauffeur James W. Phipps. Her masquerade was revealed when she became involved in a trifling Pasadena, Cal., traffic mishap. Minerva is the "husband" of Mrs. Mabel Phipps, who is "his" second "wife."

NEW RADIO PRESS GALLERY IN CONGRESS PRAISED BY PRESIDENT

WASHINGTON, (UP)—President Roosevelt and Speaker William B. Bankhead hailed the formal opening of radio press galleries in congress as a significant event in the evolution of modern communication.

In a message to Foulton Lewis, Jr., president of the Radio Correspondents' Association, the President said that "Only a well-informed electorate can discharge the duties of citizenship and the cause of democracy is advanced by every means which carries correct information about public affairs to the farthest end of the country."

Congratulating the radio commentators on the opportunity "to be pioneers in a great adventure," Mr. Roosevelt added:

"I point out what is obvious, that in broadcasting news of actual debate in the congress ultimate opinion will be based on the impartiality and fairness of the reporting. This includes giving 'equal prominence' to both sides of any issue, emphasizing all the implications of the words."

Bankhead said the one great safeguard of democracy is for the people to know at all times what their elected representatives are doing, because if they are really carrying out the will of the majority they will be retained in office and if they are not, they will be replaced by others.

"That is the reason that the free American press has played such an important part in the American system of democracy ever since the nation was founded," he said.

Recorder's Filings

July 21, 1939

Assignment of mortgage, Kirby P. Hickey and Dorothy Hickey, husband and wife to A. Wolfe and Edith G. Wolfe, husband and wife.

Reconveyance, Henry S. Lyon and Chas. F. Wood, trustees to Emil A. Eldinger and Augusta W. Martin.

Declaration of homestead, by Dudley G. Davenport.

Notice of non-responsibility, by S. W. Collins, H. W. Barton, Frank E. Beauchamp, B. Bosio and R. Berry.

Grant deed, Nicholas Fossati, a single man to Carroll A. Olson, and Florence C. Olson, as joint tenants.

GRANDMOTHER FAST READER

LAWRENCE, Mass., (UP) — Mrs. Mary McGovern, an 88-year-old grandmother, is "catching up" on some of the reading she missed while rearing a family of seven children. For the past two years, she says, she has been reading 10 library books a week — with love stories her favorite.

The State Department of Agriculture is trying to find out the cause of prunes dropping in parts of the Sacramento valley.

County Fires "All Quiet"

(Continued from page one)

burned in the fire east of El Dorado.

By UNITED PRESS

More than 500 firefighters over the state dug in today to control four major fires centered in Mariposa and Shasta counties, encouraged by the fact that no serious blazes broke out in the last 24 hours.

The toll of blackened timber, brush and range land, however, rose to more than 100,000 acres in the past week. Evidence of incendiary at Sierra National forest still was sought.

Stewart Says—

Admiral Byrd Plans To Outsmart Germany On South Pole Venture

By CHARLES P. STEWART
Central Press Columnist

THAT UNCLE SAM is about to stake out his share of the Antarctic continent is not a bit surprising. The queer thing is that the South Pole has been so long neglected. Not that it hasn't been visited and looked at, but it's remained entirely unsettled. The North Pole is different. That's nothing but open water. It's frozen over to be sure. However, a drifting ice floe is nothing to plant a colony on. And, at that, the rim of land all around the edge of the Arctic sea is slightly populated—Alaska, Canada, the northern Scandinavians and European and Asiatic Russia. It isn't a dense population, but it even has some cities, like Archangel and Haparanda, huddled as close to Boreas pole as there's any terra firma to build them on.

But the South Pole is in the middle of a regular continent—big, too. And they say it has valuable mineral resources. That's why Germany is planning to send a bunch of colonists down to occupy some of it in the name of Herr Hitler. And it's to head off the Germans that led congress to appropriate \$340,000 to dispatch an expedition thitherward, under Admiral Byrd, to pre-empt a claim in Uncle Sam's behalf. The only peculiar detail is that we've been so slow about it.

When a country wants to establish title to a vacant piece of territory under international law (if that amounts to anything any longer) the rule is that it must occupy it and keep it occupied. So the scheme is for Admiral Byrd to land about 100 Americans to set up housekeeping in Antarctica in three little municipalities. They're to remain for a year; then to be relieved by another batch of 100 or more—if the first bunch reports that it liked it.

Paraphrasing, a year would be enough, I'd guess. And so on ad infinitum. The Germans will be forestalled in this fashion. They may go to war about it later, but momentarily we have 'em off base; we've got \$340,000 immediately available, and they haven't.

Scandinavia's Prior Right Norway really has first claim on the South Pole by reason of Captain Amundsen's first arrival there.

The captain had been trying for years to get, not to the Austral, but to the Boreas pole. Finally he made a last desperate effort. In the midst of it he learned that Admiral Peary had beaten him to it. "Heck!" exclaimed the captain, petulantly. "Then I'll discover the SOUTH Pole." And he went right down and discovered it.

As to the South Pole's mineral resources I don't know.

It does have poultry—penguins.

The Arctic regions have the musk ox. I know Dr. Cook of Arctic fame met him in Copenhagen in World war days. "War," said the "doc," "is due to peoples' strife for land. Now, there's lots of land in the Arctic regions. Why shouldn't they develop it?"

"But what," I asked, "would they do if they got there?" "Well," answered the "doc," "they could raise musk oxen."

At the South Pole they could raise penguins.

How About Weather?

South Polar weather is pretty darned important. We're in the habit of thinking that our weather all comes from the North Pole. North and South Polar weather mix at the Equator and the mixture is reflected in both directions. It raises haws with tropical storms, and, for all we know, with a lot of other terrestrial weather.

FALL DUE TO BULLET

VISALIA (UP)—Examining Porfirio Barajas, 9, for injuries supposedly received when he fell from a tree, hospital attendants were amazed to find a bullet lodged at the base of his brain. They said the youth evidently had been struck by a stray bullet, which caused him to fall.

War Auxiliary Head

Miss J. Trefusis Forbes, of London, has been appointed to the British Air Ministry as director of the newly-formed Women's Auxiliary Air Force. Members of the organization will, in time of war, replace the male ground staffs at airports as cooks, mess orderlies, and at other auxiliary posts.

Marshall Park Bill Dies

(Continued from page one)

crew of about forty men for a period of about three months.

It is generally felt that it is most unfortunate that Governor Olson failed to sign the Pierovich Bill since the funds which it proposed to appropriate would come from monies all ready on hand and would entail no additional revenue raising.

GIRL SAVES FLOCK

GOLDEN, Wash., (UP)—A 17-year-old girl shepherdess, Lucille Beeks, spent 60 hours with her flock virtually without food and sleep after they became divided in the wild Mt. Adams country. Miss Beeks, an experienced herder despite her age, said she preferred to stay with the sheep than to risk losing any of them by returning to camp.

PUBLIC NOTICE

NOTICE OF SALE OF REAL PROPERTY

In the Superior Court of the State of California, in and for the County of Sacramento.

No. 17874 Dept. 2. IN THE MATTER OF THE ESTATE OF FRANCES BIERBAUER, DECEASED.

NOTICE IS HEREBY GIVEN that the undersigned administratrix of the estate of FRANCES BIERBAUER, deceased, will sell as a whole at private sale to the highest bidder for cash, in lawful money of the United States of America, subject to confirmation by the above entitled court upon the terms hereinafter set forth, all of the right, title, interest and estate which said decedent had at the time of her death in and to the following described real property situate, lying and being in the County of El Dorado, State of California, to wit:

Lots 1, 2 and 3 of Block 11 of Elgin Park Addition, as per map thereof recorded in the office of the County Recorder of the County of El Dorado, State of California; TOGETHER with any right, title or interest in said premises other than or in addition to that of said decedent at the time of her death which the estate of said decedent may have acquired by operation of law or otherwise prior to such sale.

Said sale will be made on or after the 12th day of August, 1939, upon the following terms, to wit: (1) For cash in lawful money of the United States of America, payable as follows: Ten per cent (10%) of the purchase price to accompany the bid and the balance of the purchase price to be paid upon confirmation of the sale by the above entitled court and delivery of the deed.

(2) All taxes and assessments of every kind are to be prorated as of the date of the delivery of the deed. Bids or offers will be received by said administratrix at the law offices of Henry & Bedeau, Room 210 Capital National Bank Building, Sacramento, California, attorneys for said administratrix.

All bids or offers must be in writing and may be left at the aforesaid office, or delivered to said administratrix personally, or may be filed with the Clerk of the said Superior Court of the State of California, in and for the County of Sacramento, at any time after the first publication of this notice and before the making of the sale.

The undersigned administratrix reserves the right to reject any and all bids for said property.

DATED: July 21st, 1939. VIRGINIA BIERBAUER, Administratrix of the Estate of Frances Bierbauer, deceased.

HENRY & BEDEAU, Attorneys for said Administratrix, 210 Capital National Bank Building, Sacramento, California.

July 24-Aug. 11—Pville Republican.

Around Our Town

Lloyd Cannon has been installing some new equipment lately at the Cannon Chevrolet Company Garage. Two of the new features are the Weaver Counter-balancer, a device for determining the degrees automobile wheels are out of balance, and an Electric Eye headlight tester.

Among a group who visited in Placerville from Salt Lake City, recently, on their way to San Francisco Fair, were Mrs. H. D. Jensen and daughter, Delana and Alice Bunderson. The two former stopping over to see their son and brother, Randall Jensen, of this city.

Colleen Clayton and Janice Benson are spending the week at Oakland and Treasure Island and visiting Colleen's aunts, Mrs. Minnie Jones and Mrs. Ila Craven. They went to Oakland Saturday in company with Mr. and Mrs. Earl Jones and Mrs. Craven, who were returning to their homes following a visit here with Mrs. Addie Williams, mother of Mrs. Jones and Mrs. Craven.

Mr. and Mrs. E. Ogden Hook are spending the week on vacation at Los Angeles and visiting Mr. and Mrs. Rowland Healy, who are former Placerville residents.

Born, to Mr. and Mrs. George Lindsey at their home on Spanish Ravine, a daughter, Jeanette Kay, 3-4 pounds; Tuesday, July 25. Dr. D. W. Babcock was in attendance. Mother and baby are doing nicely.

Mrs. Leigh Ahlstrom of Pollock Pines is visiting at the home of Mr. and Mrs. George Lindsey, for a few days.

Miss Beverlee Lloyd, order clerk in the Montgomery Ward Company's order office, had the misfortune to break her finger while on a swimming party Sunday night at the Chili Bar beach. Miss Lloyd was transferred here from Oakland about a week ago to get training in managing an order office preparatory to being placed in charge of some of the newer offices which the company is opening in other communities.

Keith Meigs is the new office manager at Russell J. Wilson Ford Agency, having been transferred here from Martinez to take the place of Rodney Thompson who has left the employment of the automobile firm.

Lee Craven is here from Oakland for a vacation visit with relatives and other friends. Mrs. Craven paid a short visit here to her mother, Mrs. Addie Williams, and returned home Saturday.

Dan M. Bassi was among the callers from the Lotus vicinity on Tuesday.

Wilder Immel returned over the weekend from Sparks, Nevada, where he had spent the previous week with Clayton Herbert, installing a shoe repair shop there. Mr. and Mrs. Herbert, he reports, are comfortably located and Clayton has the shop running.

M. M. Barnham, of the regional forest office at San Francisco, and Mr. Thatcher, of the Washington headquarters, are on Eldorado Forest this week.

Mrs. Percy McNie was in town Wednesday forming from Camino, on business at the school superintendent's office.

Mr. and Mrs. T. V. Eisenhuth and children are here from Greenville,

VENTROQUILISTS' DUMMIES MADE TO "ACT LIKE HUMANS"

CINCINNATI, O., (UP)—Ventriloquists' dummies owe much to the McElroy brothers of Harrison, Hamilton county. The brothers, Glenn, 28, and George, 26, have given the "brains" to the dummies.

Formerly Mr. McCarthy, and others of his ilk did all their "thinking" through rummer manipulators operated by the ventriloquist. Then, four years ago George and Glenn decided that something should be done to "humanize" the little fellows who sit on people's knees. At first they learned the technique of making marionettes and applied their knowledge to dummy-making.

"The only trouble," according to George, "was the brains. They were rubber."

The brothers wanted something better than rubber brains for their little men so they worked upon a different type of cerebral equipment. When completed the "brain" consisted of two flashlight batteries, 300 pieces of steel, and countless yards of wire.

From the back of the neck 13 keys protruded. Press one and the dummy's hair stood on end, another made him look cock-eyed, another caused him to wink—each of the keys produced a different reaction.

Pushing a combination of keys produced an effect which seemed human. One combination caused the mouth to open, the eyelids to droop and the bulbous red nose to light up giving the impression of drunkenness.

The brothers have ambitions. They are not satisfied just working with dummies but have started on another idea which they hope will eventually take them to Hollywood.

Recorder's Filings

July 25, 1939

Request for notice of default and sale, by Madeline Lang, as administratrix with will annexed of the estate of George A. Colwell, deceased.

Deed, W. F. Truscott, tax collector to Clarence L. Scheiber.

Grant deed, C. F. Edwards and Nellie M. Edwards, husband and wife.

Notice of non-liability, by Ephraim Richards and Susanna Richards, husband and wife.

Deed, Virginia M. Roy, a widow, to C. E. Pollock.

Deed, C. E. Pollock and Lorraine Pollock, his wife, to Ernest Roy, a single man.

Deed of gift, Martin Stanovek, a single man to Catherine Brown, Josephine Garcia and Martin Stanovek.

CRASH POLICEMEN WALK AKRON, O., (UP)—Police officers H. J. Mick and Gale Hensch are walking now instead of directing traffic as they usually do. They wrecked their motorcycles in a collision with each other and were transferred to foot patrol duty.

Practically all of the apricots in Glenn county will be dried this season.

Plumas County, spending a part of their vacation with Mrs. Eisenhuth's parents, Mr. and Mrs. George Pountain, at Lotus, Tom transferred several years ago from this county to Plumas County with the state highway patrol.

BOMB RAID SHELTERS REMOVE PERIL OF CONCUSSION

LONDON, (UP)—Human bomb targets are being used in Great Britain to ascertain the effect of high explosives dropped near air raid shelters.

An experiment carried out by the civil defense research committee at Shoeburness, Essex, proved that high explosive bombs are not so dangerous as many think.

During the bombing, scientists were quite comfortable in bomb-proof barricades and did not suffer from either concussion or from shock.

The committee is composed of some of Britain's leading scientists. So great is the scope of their work that they will call on the universities to provide them with additional laboratory space in which to carry on their experiments.

Camouflage, street decontamination, damage to drains, factory lighting in wartime and investigations into earth shock waves form only a mere skeleton of their program.

Four-Toed Horse Size Of House Cat!

TREASURE ISLAND ON SAN FRANCISCO BAY—Study in evolution: in Treasure Island's Hall of Sciences is an exact model, in plaster, of the Eohippus, four-toed ancestor of all horses. It is the size of a house-cat, with somewhat longer legs.

Over on the Gayway is the "largest horse in the world," a huge Percheron weighing close to 3000 pounds.

Things have changed considerably in the last few million years!

FIRE REVISITS OLD INN BRECKSVILLE, O., (UP)—History repeating itself, fire damaged the historic Brecksville Inn, oldest of the stagehouses in this section of the country. More than 100 years ago fire destroyed the original inn.

Save money at the County Fair Aug. 23-27. Buy season ticket and get \$6.00 coupons for \$1.00. j17-tfc.

BACHELOR, 88, NOT LONELY

BROOKS, Me., (UP)—John Leonard, 88, last survivor of nine children, never married. But he says he isn't lonely because his 11 cats do the "pinch-hitting for grandchildren I haven't got."

RADIO MAST DISMANTLED

CHELMSFORD, Essex, Eng., (UP)—The first steel radio mast ever built in the history of radio is being dismantled here. The mast, 187 feet high, was built for Marconi's first experimental station here.

NEWLYWEDS 74 AND 70

GREELYVILLE, S. C., (UP)—Dan Cupid thrives to a ripe old age in this little South Carolina village. Latest newlyweds here are Bob Hawkins, 70, and Fannie Burns, 74.

ROMANCE

ASCOT, Eng., (UP)—Rose of England, Engaged. Congratulations. These were the names of the first three horses in one race here.

County Fair Season Tickets Aug. Save up your nickels. On sale after 23 to 27. \$6.00 admissions for \$1.00. j17-tfc.
